

Choice & Control

Does your sump pump work when you lose power?

- Leading cause of all sump pump failures is due to power loss.
- Power loss typically happens during storms.
- Reduce the risk of a wet basement with a battery backup for your sump pump.

GrateSump™ Plus

Sump Pump Battery Backup System

For added protection and peace of mind, install the GrateSump Plus™ battery backup sump pump system. If your power goes out, you have a safe operating time until your power is turned back on. A battery back up system should be installed with every primary sump pump system.

For added protection against primary sump pump system failure, install the GrateSump Plus II which includes a secondary sump pump battery back up system.

When that "backup" battery kicked in.. EVERY PENNY WAS WORTH IT !!!!
I Live at Misquamicut.. I stayed !! I PREVAILED !!!
Russell

Thank you! the best thing that I had done. It really paid for itself during last flood storm. Thanks and keep up the good work!
Gene T.

THANK YOU THANK YOU THANK YOU
Our Battery Backup System is working perfectly and we are the only house in the neighborhood with a dry basement after the recent rainstorms. We recommend you every chance we get!!!
Ronnie A.

Fast Sump™ FS-900

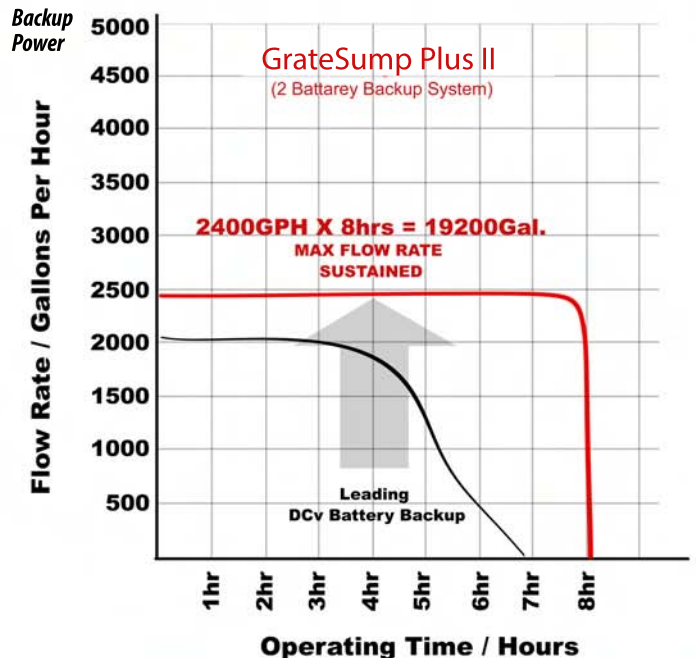

Automatically Convert Battery Power Run Your Standard 115V Pump. No Secondary Pump Required.

Features

- Works automatically when power fails
- Maximum sustained pumping throughout battery life
- Powers one 4 amp pump for up to 8,000 - 10,000 gallons on 1 battery & up to 12,000 - 14,000 gallons on two batteries.
- Operates pump on AC & DC power
- Recharges automatically once power is restored
- Can charge up to two batteries at the same time
- Compatible with sealed batteries
- Low battery indicator (Alarm and LED)

Maximum Battery Backup Performance - Up to 4800GPH

GrateSump (Liner)

GrateSump is an engineered sump pump housing that is designed to quickly remove water from under a basement floor without undermining the soil from under the foundation walls.

- Sealed Cover
- Dehumidifier Drain Plug
- Permanent Mesh Filter
- Large Inlet Holes
- Built-in Pump Stand
- Strong Durable Construction

FastSump Pump

FastSump Pump is a 1/3HP pump that utilizes a high efficient motor. It uses less amps, which saves on energy costs and provides a longer life to the pump because it runs cooler.

- 1/3 HP Sump Pump
- 2400 GPH
- Permanent Split Capacitor
- Reliable Float Switch w/ bypass switch
- Energy Efficient (Only 4amps)
- Durable Cast Iron
- 3yr Warranty

FS-900 (Backup)

FS-900 provides sustained backup power to the primary sump pump.

- Converts DC to AC power.
- 900w 7.5amp Inverter converts 12v DC to 115v AC Power
- 8,000 -10,000 Gallons (1 Battery)
- 12,000 -14,000 Gallons (2 Battery)
- Recharges Automatically (1 or 2 Batt.)
- Sealed Battery - 100AH
- 1yr Warranty FS-900
- 1yr Warranty Battery

Sump Pump Battery Backup Systems

GrateSump Plus (2400GPH)

- Primary Sump Pump System with Battery Backup
- 2400GPH with AC or DC Power
- GrateSump - Advanced Sump Pump Liner
- FastSump Pump - 1/3HP Sump Pump
- FastSump FS-900 converts 12v DC to 115v AC
- Sealed Battery - 100AH

GrateSump Plus II (4800GPH)

- Dual Primary Sump Pump System with Battery Backup
- 4800GPH with AC or DC Power
- (2) GrateSump - Advanced Sump Pump Liner
- (2) FastSump Pump - 1/3HP Sump Pump
- (2) FastSump FS-900 converts 12v DC to 115v AC
- (2) Sealed Battery - 100AH
